The Department of Computer Information Systems at Georgia State University invites applications and nominations for multiple tenure track faculty positions, effective Fall 2013 or later. Minimum requirements are earned Ph. D. in Information Systems or related discipline from AACSB-accredited university or international equivalent, record of scholarly publications commensurate with rank, and demonstrated ability of teaching within Information Systems. Ideal candidates will have significant academic experience, deep understanding of information technology (IT), be able to articulate a coherent research focus, have strong theory development skills, be able to apply cutting-edge methodologies, and have a record of prior publications and a strong trajectory of future publications in the premier IS journals (e.g. *MIS Quarterly* and *Information Systems Research*).

Further information about the department is online at [http://www2.cis.gsu.edu/](http://www2.cis.gsu.edu/). Applicants should register with [http://academicjobsonline.org/](http://academicjobsonline.org/) and upload their curriculum vita, statements of research interests and teaching interests, recent publications or working papers, and evidence of teaching performance. Questions about the positions can be directed to Search Committee Co-Chairs, Mark Keil and Arun Rai, at mkeil@gsu.edu or arunrai@gsu.edu. Review of applications begins immediately and continues until positions are filled. Positions are contingent on University budget approval. Georgia State University is an Equal Opportunity Educational Institution/Affirmative Action Employer.
